

## **Weybourne Atmospheric Observatory dataset - conditions of use**

Access to the data from the Weybourne Atmospheric Observatory (WAO) is restricted for two years after measurement to members of the School of Environmental Sciences at the University of East Anglia, and to other users at the discretion of the Manager of WAO.

To access Weybourne data at the BADC, all data users must agree to contact the manager of WAO with details of the intended research prior to using the data, and to cite WAO as the source of the data in all publications arising from such work.

All applications will be forwarded to the WAO manager for approval.

**Whilst the data are restricted from the public domain, no data should be transferred to a third party without the consent of the WAO manager.**

*I agree to abide by the conditions for usage of Weybourne dataset as stated above.*
