REVOLUTIONARY

## Discover and benefit from EU opportunities

Funding opportunities for the Energy and Environment fields have been significantly increased for the new EU budget period. Three new programmes alone have dedicated more than EUR 7 billion for organisations operating in Energy and Environment:

- » FP7: EUR 4.25 billion
- » CIP / IEE: EUR 1.16 billion
- » LIFE+: EUR 2.1 billion

This is only the tip of the “melting” iceberg! Organisations working in these fields are given even greater importance, assistance and opportunities because of the challenges facing the world today. Climate change and the rising cost of fuel are only two examples of the problems that need immediate action. The EU is reinforcing its efforts to encourage sustainable solutions, now is the time to make the most of the opportunities...

## Investing in a brighter future...

Organisations involved in EU funding opportunities contribute to the growth and competitiveness of Europe, pushing the limits and assist in creating the world's leading knowledge based society. Why not learn how to become more involved?

- » Better exposure to new markets and clients
- » Contribution to the advancement of Europe
- » Enhanced research capacity and capabilities

## The 4th Annual International Seminar on EC Project Development Energy & Environment

### 2-day exclusive training for decision makers

The past three years Europa Media has worked in collaboration with Geonardo Ltd. to bring comprehensive information on the Energy and Environment Programmes of the EU as they evolve. The 4th Annual International Seminar on EC Project Development is here.

### *Insight into the opportunities*

- » EU funding exposed - New opportunities of E&E Programmes
- » Expertise and advice from leading EU Project Managers
- » Detailed information about project practicalities

### Practical knowledge from experienced professionals

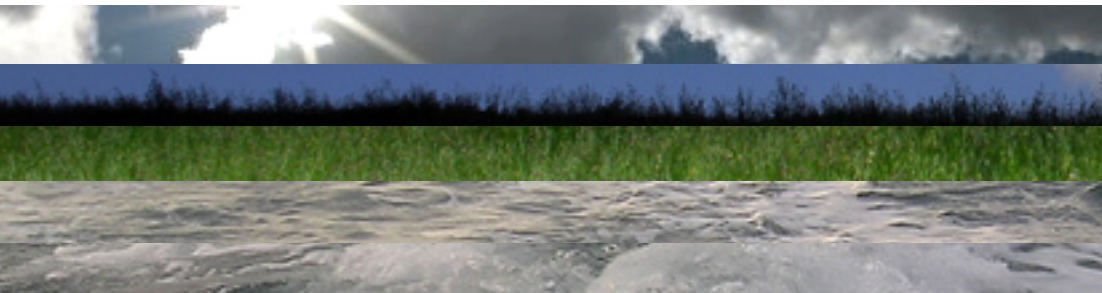

EU funding experts will present the complexities of the various Energy & Environment programmes of 2007-2013, while allowing the participants to absorb the information in the comfortable, relaxing surroundings of St. Julian's, Malta. Participants will gain insight into all the new Energy and Environment programmes, FP7, CIP, LIFE+, and will learn the particulars of project development and management in each. Decision makers across Europe active in the fields of Energy and Environment will learn how to take full advantage of the funding sources. The 4th Annual International Seminar on EC Project Development - Energy & Environment is the event for 2008.

**Free E-learning** Participants are provided an optional 2-week e-learning to enhance their knowledge on the EU's programmes benefitting the Energy and Environment sectors.
