

Conditions of use for CEDA System login accounts - commercial users

- I will not undertake any illegal activity or copy any offensive material on to CEDA machines.
- I will only login to CEDA servers via SSH using a Public/Private key pair having provided my public key to CEDA.
- I will ensure that my SSH private key is protected by a password (see [Instructions](#) on how to generate a password protected key).
- I will take every reasonable precaution to ensure that my account is not used by another person.
- I will not access any datasets visible on the VM that I do not have permission to access (via the CEDA catalogue).
- I will not facilitate access to any datasets visible on the VM by a third party without prior agreed consent from the service provider and/or the original data provider.
- For CEMS accounts, I agree that my contact details may be shared with other CEMS partner organisations for the purposes of user support.
