

HyCRISTAL – Ugandan Weather Station and Rain Gauge data Conditions of use:

Ugandan Weather Station and Rain Gauge data from the HyCRISTAL project are restricted to use by project participants for 2 years after which they will be released to all CEDA registered users under the open government licence <http://www.nationalarchives.gov.uk/doc/open-government-licence/version/3/> . During the embargo period (1/7/2018 – 1/7/2020) requests for access will be authorised by project officer David Macdonald. Please request access through CEDA catalogue page.

During the embargo period (1/7/2018 – 1/7/2020)

- users should share copies of any papers using the data ahead of submission (this is the internal HyCRISTAL policy)
- depending on how integral the dataset is to the publication, HyCRISTAL staff involved in the collection of the data reserve the right to authorship of the publication. We encourage the early engagement of the users if they anticipate publishing with the data.

During and After the embargo period

- If data are used in publications the data provider should appropriately cite the data in accordance with information found on the catalogue page under “Citable as”
